## 8-WEEK Online Social Skills Group

Thursdays 4:00pm-5:00pm

## February 18th - March 18th & April 1st - April 15

This class will equip school-age children who need some extra support in learning how to socialize appropriately with their peers with the tools necessary for success. Many studies on children and social skills have found that positive social interactions are a critical part of a child's development and psychological well-being. As many children are currently attending school online, the chances for social interactions has decreased dramatically. This class will

provide children with the opportunity to both interact socially with their peers and practice the skills they learn while receiving feedback and encouragement in a fun and engaging environment.

Total Cost - \$40

(scholarships are available)

## For Children Ages 8 - 11

- Increase PositiveSocial Interactions
- Decrease Disruptive& ImpulsiveBehaviors
- Increase Self-Esteem & Self-Confidence
